

Do not approve Item H. on the Commissioners agenda.

- 1) This contract for Upkeep Technologies software is **redundant**. A dedicated ticketing system for maintenance does nothing to solve real issues. This expense is completely unnecessary and a waste of county funds and taxpayer money. In my opinion, 12 licenses and an \$5000 setup fee is way overpriced for a glorified ticketing system.
- 2) The ASI yearly contract agreement is already covering- “ All Maintenance repair tools and equipment” . The ASI agreement cost per year is \$868,608.00.

As with the proposal for a new jail, this proposal reflects the countys pattern of wanting to spend money on not the problem.

SPENDING money on NOT the problem.

ASI contracts and budget data can be found on the the Gateway system, at https://gateway.ifionline.org/report_builder/
