

Monroe County Property and Income tax funds

Property Tax review Indiana Monroe County

Ownership means that you rent from the County **Property Tax**

Property taxes are an **ad valorem tax**, meaning that they are allocated to each property owner proportionately according to the value set by the County Assessor.

The property tax process is also known as the **property tax assessment and billing cycle**. This cycle begins with the development of each property's assessed value by the county assessor. The assessor then transfers the data on each property's value to the county auditor. The auditor, after applying deductions, exemptions, and other valuation adjustments, sends these values (known as the certified net assessed values) to the Indiana Department of Local Government Finance.

With mass appraisal, your property is looked at in conjunction with other properties in your area. Assessors consider (1) age, (2) grade, and (3) condition. They use those as part of an equation with ratings for quality and condition to determine a **replacement cost new (RCN)**. The RCN is multiplied by the market factor, depreciation, and neighborhood multiplier.

Finally, in a process known as **annual adjustment**, or "trending", each year real property sales data, from required Sales Disclosure records, is used to determine if the value of properties in your area should change to match the market value found in the sales of recent properties.

Your Monroe County GIS Property Card

Information used to access your property

You own property but for taxing purposes it is known as Real Property rather than Personal Property and has been carved up into bits, and renamed a Parcel. The LowTaxInfo and the Form 11 “NOTICE OF ASSESSMENT OF LAND AND STRUCTURES / IMPROVEMENTS” are Indiana state based data repositories for Parcel information, but they do not detail the RCN or other details about the property used as the inputs to assessment.

Valuation Records which create the RCN are “Work values are not certified values and are subject to change”, can be found on the Beacon GIS website. This will be the current values, not the historical values.

Property Tax Summary Tool

Property Tax Paid (Net Tax Due) by Property Class

Net assessed value is the gross assessed value **minus** any number of qualifying exemptions or deductions or credits for the taxpayer or property.

Data which the Auditor of **Monroe County** has reported to the State of Indiana available at the link below

<https://gateway.ifionline.org/public/pts/pts-class.aspx>

Because Flat rates are bad

- Exemptions (<https://www.in.gov/dlgf/8818.htm>)
 - Exemptions involve a **certain type of property**, or the **property of a certain kind of taxpayer**, which is not taxable.
 - Application for exemption must be filed before April 1 of the assessment year with the county assessor.
- Deductions (<https://www.in.gov/dlgf/2344.htm>)
 - Deductions work by **reducing the amount of assessed value** a taxpayer pays on a given parcel of property.
 - Application for deductions must be completed and dated not later than December 31 annually.
- Credits —

Circuit Breaker = Property TAX CAPS = credits

The General Assembly shall (Article 10 Indiana Constitution) limit a taxpayer's property tax liability.

The circuit breaker, or property tax caps, represent the **maximum tax bill that an individual can pay.**

The circuit breaker credit, an amount applied to a qualifying tax bill that prevents a taxpayer from exceeding the property tax cap.

Where exemptions and deductions reduce the taxable AV, **tax bill credits reduces the Gross Tax Liability directly.**

After calculating the Gross Tax Liability, there are three specific **credits** that are applied to the tax bill. (2024)

4A) Local Income Tax – Property Tax Relief Credit

4B) Circuit Breaker Credit

4C) Over 65 Circuit Breaker Credit

The most widely used deduction is the homestead standard deduction, allowing homeowners to deduct the lesser of 60% of their property's gross assessed value or \$48,000 under Indiana Code 6-1.1-12-37. **This applies only to owner-occupied primary residences.**

Additional relief comes through the supplemental homestead deduction, which, in 2024, **reduces net assessed value by 35% for the first \$600,000 and 25% for amounts exceeding that.**

Seniors aged 65 and older with an income below \$40,000 for individuals or \$50,000 for married couples may qualify for an exemption if their home's assessed value does not exceed \$240,000 under Indiana Code 6-1.1-12-9. There are other deductions of Veterans and disabled hoosiers.

Deductions reduce the AV, sample graphic of 10 properties

Tax Bill – Gross Tax Liability

- A taxpayer's gross liability is a simple formula:

Net AV	Times	Taxing District Rate
--------	-------	----------------------

- The taxing district rate is comprised of the overlapping taxing unit rates, this formula can also be expressed as:

Net AV	Times	County Unit Rate
Net AV	Times	School Unit Rate
Net AV	Times	Township Unit Rate
Net AV	Times	City/Town Unit Rate
Net AV	Times	Library Unit Rate

* The tax rate is to be divided by 100

Determining the Taxing District Rate

1. Taxing Units & Districts:

- Taxing Units: These are government entities like townships, cities, towns, school corporations, libraries, and other special districts that levy property taxes to fund their services.
- Taxing Districts: These are specific geographic areas defined by the overlapping jurisdictions of different taxing units.

2. How Tax Rates Are Determined:

- Each taxing unit prepares a **budget** outlining its spending needs for the upcoming year.
- The Indiana Department of Local Government Finance (DLGF) reviews and approves these budgets.
- The county assessor determines the net assessed value of properties within each district.
- The DLGF calculates the tax rate for each taxing unit within a district based on their approved budget and the total net assessed value of properties within that unit's jurisdiction.
- The county auditor compiles the rates from all the overlapping taxing units to determine the total tax rate for each specific taxing district.

3. Variation in Tax Rates:

- Because different combinations of taxing units exist in different areas, the total property tax rate can vary significantly from one taxing district to another within the same county.

SPECIAL	0.3048	0.3030	\$217.02	\$284.52	\$67.50	31.10%
TOWNSHIP	0.0097	0.0088	\$6.91	\$8.26	\$1.35	19.54%

PERRY

TABLE 3: GROSS PROPERTY TAX DISTRIBUTION AMOUNTS APPLICABLE TO THIS PROPERTY

TAXING AUTHORITY	TAX RATE 2024	TAX RATE 2025	TAX AMOUNT 2024	TAX AMOUNT 2025	TAX DIFFERENCE 2024-2025	PERCENT DIFFERENCE
COUNTY	0.3577	0.3064	\$149.88	\$128.38	(\$21.50)	(14.34%)
LIBRARY	0.0848	0.0786	\$35.53	\$32.93	(\$2.60)	(7.32%)
SCHOOL DISTR	0.7344	0.7293	\$307.71	\$305.58	(\$2.13)	(0.69%)
SPECIAL	0.3048	0.3030	\$127.71	\$126.95	(\$0.76)	(0.60%)
TOWNSHIP	0.0182	0.0171	\$7.63	\$7.16	(\$0.47)	(6.16%)

Tax Bill 101 – CB Cap Calculation

	Homestead Property (1% Cap)	Agricultural Land (2%)	Non Residential Real Estate (3%)
Gross AV	100,000	100,000	100,000
Net AV	Not Needed for the Calculation	Not Needed for the Calculation	Not Needed for the Calculation
Tax Rate	Not Needed for the Calculation	Not Needed for the Calculation	Not Needed for the Calculation
Gross Liability	Not Needed for the Calculation	Not Needed for the Calculation	Not Needed for the Calculation
Property Tax Cap	$\$1,000 = 100,000 * .01$	$\$2,000 = 100,000 * .02$	$\$3,000 = 100,000 * .03$

In order to calculate the property tax cap, the gross assessed value is multiplied by 1%, 2%, or 3% based on property type. The net AV, tax rate, and gross liability are not factored into the calculation of the cap, but they will factor into the calculation of the credit.

2025 Senate Bill 1 made changes to the Property Tax code and reduced the Net AV available in Monroe County

A. The homestead deduction (\$48,000) will be phased out 2026-2030

- **2025:** Up to \$48,000 + 37.5% of your home's assessed value
- **2026:** Up to \$40,000 + 40% of your home's assessed value
- **2027:** Up to \$30,000 + 46% of your home's assessed value
- **2028:** Up to \$20,000 + 52% of your home's assessed value
- **2029:** Up to \$10,000 + 57% of your home's assessed value
- **2030:** 62% of your home's assessed value
- **2031:** 66.7% of your home's assessed value

B. A new 10% tax **credit** will be applied to homestead properties, which is capped at \$300.

C. Added new deductions for the 2% Tax Cap Properties (Real Property which is not owner occupied)

D. Personal Property Changes – Exemption increases from \$80,000 to \$1,000,000 to \$2,000,000 and new property will not have a minimum floor for assessed value.

- Monroe County has a total of \$805,058,026 of personal property assessed value for Pay 2025 (about 7.2% of total AV). (FSG)
- Property Tax Growth Quotient will be 4% for 2026 (net revenue will be less due to circuit breaker impact).
- Due to changes of this bill via items A through D, the County's Net AV will be lowered and as a result residents will have higher property tax rates.

Gross AV - 3,110,000 Million

Supplemental deduction amount is based on 66.7% of real property assessed value

Real Property Inflation

Gross Assessed Value (in Millions)

<https://www.in.gov/dlgf/files/2024-Exemptions-Deductions-Report.pdf>

YEAR	2017	2018	2019	2020	2021	2022	2023
Gross AV	10,777.3	11,117.7	11,550..8	12,037.7	12,775.6	13,541.2	15,370.9

The total gross assessed value of all properties in Monroe County increased by approximately \$1.6 billion in 2024, representing about a 10.5% rise.

- The decision of current elected officials has been that the correct way to handle social problems, no access to health care and issues associated with poverty, is for the **county borrow over \$250 Million** for a new JUSTICE Facility. To do so they require a funding stream and collateral.
 - To create more yearly funds to pay the construction bonds and financing fees, the county will dedicate all of Economic Development Local Income Tax (LIT) and Jail LIT revenue to the project for the next 20-25 years. Perhaps increasing the LIT tax, again, to its maximum in the next year. Thus **extracting tens of millions of dollars** from working residents who live in Monroe County.
 - To balloon the collateral basis for such a financial debt, the Assessor has allegedly manipulated the **Gross Assessed Value** of Monroe County by changing the land type (AG land to residential parcels,) created home sites on vacant unplatted land and ignored a large percentage of market based sales disclosures. The Assessor also allegedly selectively modified the “grade” of structures, changed the designation of mobile homes to wood frame residences and generally increase the amount of AV in Monroe County. **This systematic statistical fiction creates more tax liability for all home owners.**
 - At the expense of solving today's issues, they **created large “rainy day” reservoirs of cash** to lessen the financing costs by a few million.
